Smart and E-mail Mobile Devices

BlackBerry and INTEGRAL Enterprise Editions

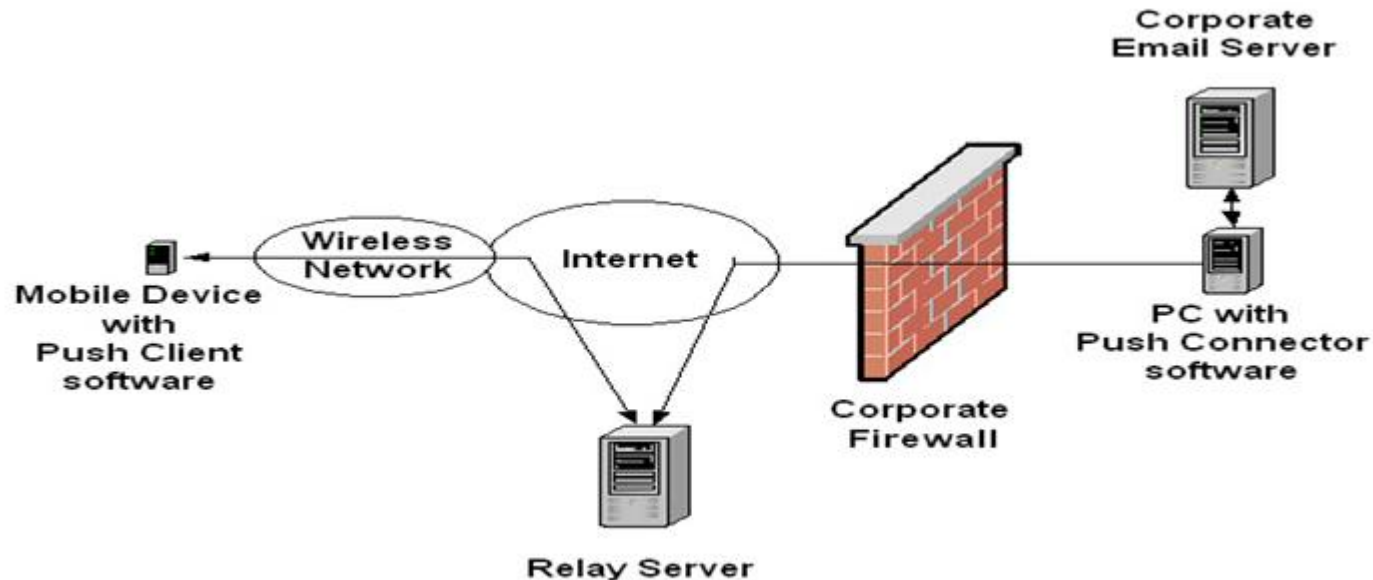

- **BLACKBERRY** and **INTEGRAL** are Mobicel's push email services. They are offering synchronisation anywhere and anytime over mobile phone:
 - **email**
 - **calendar**
 - **contacts**
- Automatic instant communication ("push mail")
- **Friendly** user experience
- File management
- Security: 3DES, 128bit or 256bit AES data encryption
- **Wide range of supported mobile phones and PDA's**

INTEGRAL Enterprise Edition

- Integral Enterprise Edition works with **MS Exchange** and **Lotus Domino** email servers
- Integral can synchronise email, calendar and contacts on your mobile phone with email client on your computer (MS Outlook or Lotus Notes)

How Integral Works

Integral Enterprise client has to be installed on mobile phone. The client on mobile phone is connected to the Relay server, which is connected to Integral Push Connector in your company.

BlackBerry Enterprise Server - BES

- BlackBerry Enterprise Server works with **MS Exchange**, **Lotus Domino** and **Novell Groupwise** email servers.
- Besides email synchronisation, **including subfolders**, BlackBerry can synchronise calendar, contacts, tasks and notes with email server.
- Access to **Intranet**, **internal data** and **applications over BES** and access to the Internet.
- **Instant messaging**: BlackBerry Messenger, GoogleTalk, Windows Live Messenger and Yahoo! Messenger.

BlackBerry Enterprise Server - BES

How BlackBerry Works

Before you can use BlackBerry, you must activate the handheld with BlackBerry Enterprise Server. Then you can use wireless synchronisation for email, contacts, calendar, task, notes and everything else that BlackBerry offers.

BlackBerry BIS and INTEGRA Internet Edition

Integral internet edition

- Works with **POP3 or IMAP4 email servers**
- Integral internet edition can synchronise email with POP3 or IMAP4 capable servers
